CASE INTRODUCTION

Two days ago, a retired professional sent me a profile he was sure was fake.

He's routinely targeted by these profiles in their romance scams on LinkedIn.

I confirmed it was and told him exactly who the person was the scammers stole a picture from. I've investigated scammers for nearly two years, so I know one profile is often not the end of it.

I follow every thread. Some when pulled easily detach meaning there's no more road to them. Others when pulled get longer and weaken the fabric the more they're pulled.

And that's the goal. Ruin the scammers' threads so they're laid bare.

33 hijacked profiles combined from Pt. 1 and Pt. 2 (this case) and the majority use pictures of attractive women...

Let's get started.

About

With over a decade of experience in the energy sector, I've had the privilege of working across diverse areas including strategic operations, project development, and sustainability transformation. My career has spanned traditional energy infrastructure as well as emerging technologies in renewable power, enabling me to bridge legacy systems with future-forward solutions.

I specialize in driving large-scale initiatives from concept to execution—whether it's optimizing operational efficiency, leading cross-functional teams, or navigating regulatory environments in fast-changing markets.

Passionate about energy innovation and long-term impact, I'm committed to helping organizations achieve growth while aligning with global energy transition goals. I believe the future of energy lies in collaboration, resilience, and adaptability

SO, WHY IS “MICHAEL H.” CLAIMING TO WORK FOR EDP RENEWABLES OF NORTH AMERICA AND ALSO HAS HOCKEY RELEVANT CONTENT ON HIS PROFILE?

BECAUSE MICHAEL HILLEBRAND’S PROFILE WAS HACKED AND REPURPOSED FOR THIS CONSPIRACY TARGETED AT JOB SEEKERS.

“MICHAEL H.”, CONT.

The account hijackers deleted all his posts but the last real interaction from michael that’s visible was from four years ago. Profile hijackers will takeover any account they can but they particularly target those with two weeks or more of inactivity.

THE LONGER THE INACTIVITY, THE HIGHER THE LIKELIHOOD THEY CAN USE THIS ACCOUNT FOR A LONG TIME.

SO, WHY WOULD A CLINICAL RESEARCHER FOR OVER 25 YEARS SUDDENLY BECOME AN SVP OF STRATEGIC PLANNING? SHE DIDN'T. THIS IS ANOTHER HIJACKED PROFILE. EVELYN'S REAL, BUT THIS PROFILE IS COMPROMISED.

AN EXECUTIVE DIRECTOR IN CLINICAL RESEARCH LEADS RESEARCH OPERATIONS, CLINICAL TRIAL DESIGN, AND REGULATORY COMPLIANCE WITHIN PHARMACEUTICAL OR MEDICAL RESEARCH DEPARTMENTS. THE ROLE FOCUSES ON SCIENTIFIC STRATEGY, DATA OVERSIGHT, AND COORDINATION OF TEAMS TO ADVANCE DRUG DEVELOPMENT AND CLINICAL OUTCOMES.

A SENIOR VICE PRESIDENT OF STRATEGIC PLANNING, ON THE OTHER HAND, DRIVES ORGANIZATION-WIDE GROWTH STRATEGIES, MARKET ANALYSIS, AND BUSINESS GOAL ALIGNMENT. THEIR RESPONSIBILITY IS CORPORATE DIRECTION—OVERSEEING OPERATIONS, FINANCIAL TARGETS, AND LONG-TERM STRATEGIC PLANNING AT THE ENTERPRISE LEVEL.

WHY WOULD A SCAMMER REPOST POSTS OF THE COMPANY THEY’RE PRETENDING TO WORK FOR? GLAD YOU ASKED.

THEY DO THIS TO FEIGN ALLEGIANCE AND MAKE JOB SEEKERS AND OTHER PROFESSIONALS THINK THEY’RE REAL. THEY KNOW PEOPLE WOULD ASK WHY WOULD THEY PRETEND SO OPENLY? THAT’S THE CON.

YOU’LL CONVINCE YOURSELF THE PROFILE’S REAL BEFORE THEY EVER SEND YOU A MESSAGE. SCAMMERS ALSO KNOW COMPANIES DON’T AUDIT WHO REPOSTS THEIR POSTS AS THEY MOVE ONTO CREATING THE NEXT PIECE OF CONTENT AND CONSIDER ALL REPOSTS GOOD ENGAGEMENT.

About

With over a decade of experience in the energy sector, I've had the privilege of working across diverse areas including strategic operations, project development, and sustainability transformation. My career has spanned traditional energy infrastructure as well as emerging technologies in renewable power, enabling me to bridge legacy systems with future-forward solutions.

I specialize in driving large-scale initiatives from concept to execution—whether it's optimizing operational efficiency, leading cross-functional teams, or navigating regulatory environments in fast-changing markets.

Passionate about energy innovation and long-term impact, I'm committed to helping organizations achieve growth while aligning with global energy transition goals. I believe the future of energy lies in collaboration, resilience, and adaptability.

Ronaldo B. (She/Her)
Driving cross-functional leadership in utility-scale renewable energy projects, strategy

With over a decade of experience in the energy sector, I've had the privilege of working across diverse areas including strategic operations, project development, and sustainability transformation. My career has spanned traditional energy infrastructure as well as emerging technologies in renewable power, enabling me to bridge legacy systems with future-forward solutions.

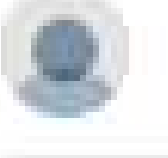

I specialize in driving large-scale initiatives from concept to execution—whether it's optimizing operational efficiency, leading cross-functional teams, or navigating regulatory environments in fast-changing markets.

Passionate about energy innovation and long-term impact, I'm committed to helping organizations achieve growth while aligning with global energy transition goals. I believe the future of energy lies in collaboration, resilience, and adaptability.

About

I specialize in driving large-scale initiatives from concept to execution—whether it's optimizing operational efficiency, leading cross-functional teams, or navigating regulatory environments in fast-changing markets.

Passionate about energy innovation and long-term impact, I'm committed to helping organizations achieve growth while aligning with global energy transition goals. I believe the future of energy lies in collaboration, resilience, and adaptability.

CASE SUMMATION

33 hijacked profiles combined from Pt. 1 and Pt. 2 (this case) and the majority use pictures of attractive women...

This is a targeted conspiracy aimed at deceiving job seekers. This is similar to the Deloitte Conspiracy I uncovered.

All these profile need to be taken down until the real people are back in control of them.

It's never only one profile, fake company or other variation.

These are concerted, focused efforts that rob job seekers of hope, money, time and in some cases, their lives.

YOUR SUPPORT IS NEEDED

My wife's health isn't improving because of significant postpartum issues.

Specifically gastric vertigo caused by Labetalol. It helped lower her blood pressure because of gestational hypertension. However, it loosened her lower esophageal sphincter. The side effect of it causes food that should stay down, to come back up, fermented. This causes severe pain in her body and head causing severe dizziness. Doctors only recommend a proton pump inhibitor (PPI). This doesn't work because PPI's reduce stomach acid. The fermented food combined with less stomach acid, makes the pain and dizziness even worse, triggering another ER visit.

She can't drive > 5-10 miles due to dizziness. There's a mass in her left breast we're praying isn't cancerous. Every night I'm up until 1:00 or 2:00 am working on cases and caring for her and our children. People I've shared this privately with said I shouldn't go into this much detail, but I am because there are so many liars who hurt real people who need help. I want you to know I'm telling the truth.

What your support does

- Allow me to my mission of educating job seekers and scaling the work
- Cover anticipated medical bills and ongoing treatment
- Help pay for core living expenses (housing, utilities, groceries)
- Address critical debt that's keeping me from regaining stability

How you can help

- Any donation, no matter the size, makes a difference.
- Share this everywhere so it reaches more who can help.
- Share my work everywhere because it helps all real professionals.

I never left. I did more, taking down thousands more fake jobs and profiles.

32,576 fake jobs and over 7,000 fake resume writers/recruiters to date.

Thank you for caring and believing in me. Your help allows me to keep fighting.

They were looking for work – but found a scam instead

Innovative scammers are posting jobs that are nearly indistinguishable from legitimate listings, including on trusted websites like LinkedIn and ZipRecruiter.

Online job scams are on the rise as more people are unemployed long term.

Daniel Zender for NBC News

The work is gaining national attention. I’m honored to see this and help even more people avoid being scammed.

They were looking for work – but found a scam instead

Fake job posts and profiles on LinkedIn have become so prevalent that Jay Jones said he spends well over 40 hours a week voluntarily fielding hundreds of messages from users about possible scams and flagging them to LinkedIn, including fake or hacked recruiter profiles, phony job postings and job coaching or résumé writing scams. He said he has reported about 32,000 fake jobs and 7,000 fake profiles in less than two years, after he encountered the sham companies when he was laid off at the end of 2023 from his job as a copywriter.

Jay Jones says he spends most of his days tracking down and reporting fake jobs listings.

THE PROFILER'S SCAM DETECTION GUIDE, VOL. 2

In Vol. 2 of The Profiler's scam detection guide, Jay delves deeper into the problems facing job seekers and all real professionals. Known as an expert in scam detection as he's taken down **32,576 fake jobs** and **over 7,000 fake profiles**, Jay helps job seekers, entrepreneurs, solopreneurs, companies and organizations avoid scams on LinkedIn.

In this guide you'll learn how to:

- Identify a fake profile, fake jobs, recruiters and companies
- Ask three questions that kill a scam before it ever gains any momentum
- Spot the characteristics of a hijacked profile and why they're so dangerous
- See you are setting yourself up to be scammed from a psychological perspective
- Access an exclusive list of the job titles, universities and companies scammers pretend to have attended/work for

Greater than all of this is you'll get the **truth** and how to move accordingly knowing it.
